- Next.js
- WordPress
- Vue.js
- TailWind Css
- Bootstrap
- Express.js
- Node.js
- Django
- MongoDB
- PostgreSQL
- MySQL
- RESTful API

Professional Experience

Full stack developer, *DYTRON SLOVAKIA Ltd.*
04/2024 – 01/2025 | Bratislava, Slovakia
DYTRON SLOVAKIA Ltd is a software development company that provides a range of services including web and mobile app development, cloud infrastructure, UX/UI design, and digital product strategy.

- Streamlined processes by coordinating the transfer of 2,000+ entries of financial data from worldwide production subsidiaries to a single web based reporting tool.
- Developed 2 cross-platform web apps and web backend using diverse technology stacks such as JavaScript, React, Node, and PHP, leading to increased efficiency.
- Provided good advices on setting up development environment.
- Made improvement suggestions, and established and promoted development guidelines, best practices, and standards.

Full stack developer, *Freelancer*
05/2020 – 03/2024 | Kosice, Slovakia

- End-to-End Development: Managed all stages of the web development lifecycle—from ideation and architecture design to deployment and post-launch maintenance. Developed solutions that met both functional and aesthetic requirements.
- Technology Stack Mastery: Worked extensively with modern frameworks and libraries, including React, Next.js, Vue.js, Node.js, Express, and Django. Leveraged both SQL and NoSQL databases (PostgreSQL, MongoDB) to handle complex data structures and optimize performance.
- API Integration and Development: Built and consumed RESTful APIs and integrated third-party services to enhance web functionality and user experience.
- Optimizing User Experiences: Focused heavily on creating responsive, intuitive, and seamless user interfaces using CSS3, JavaScript.
- Code Quality & Testing: Ensured high standards of code quality, maintaining best practices in version control (Git) and using testing frameworks (Jest, Mocha) to ensure the stability of web applications.

Education

B.S. Computer Science,
Slovak University of Technology in Bratislava
2022 – 2024 | Bratislava, Slovakia
I graduated from the Slovak University of Technology in Bratislava, where I pursued a Bachelor degree in Computer Science. During my studies, I gained a solid foundation in both theoretical and practical aspects of computer science. My coursework and projects equipped me with a deep understanding of algorithms, data structures, programming languages, and software development methodologies.
